

Creating Perspective!

What is Perspective?

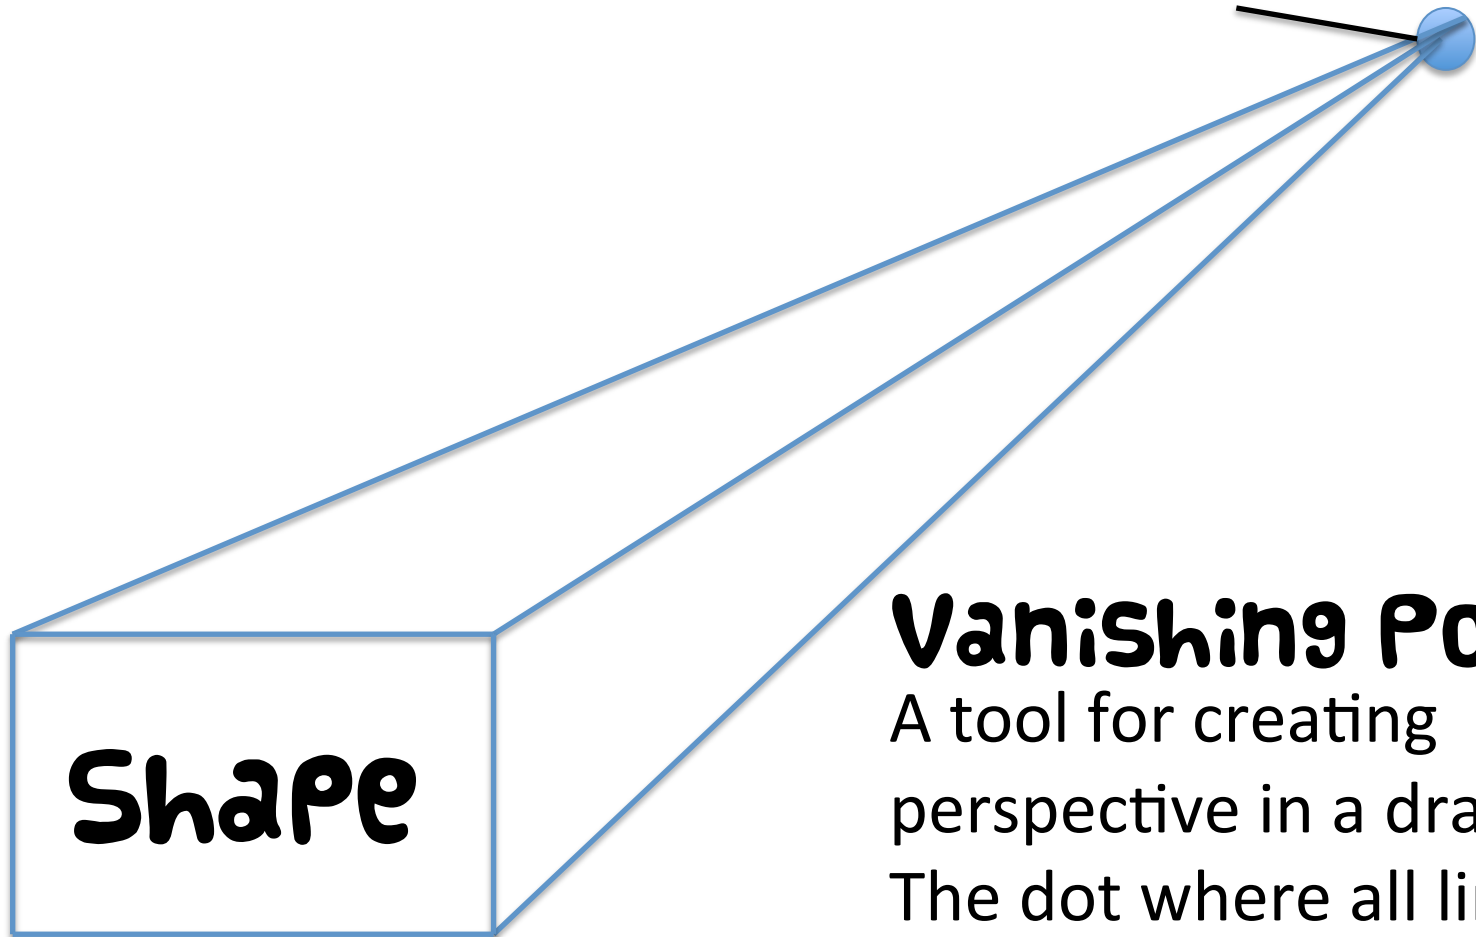

Depth-How deep or three-dimensional an artwork looks. The illusion of space can be created using color, line, and shape

Perspective-The technique artists use to project an illusion of the three-dimensional world onto a two-dimensional surface to create a sense of depth.

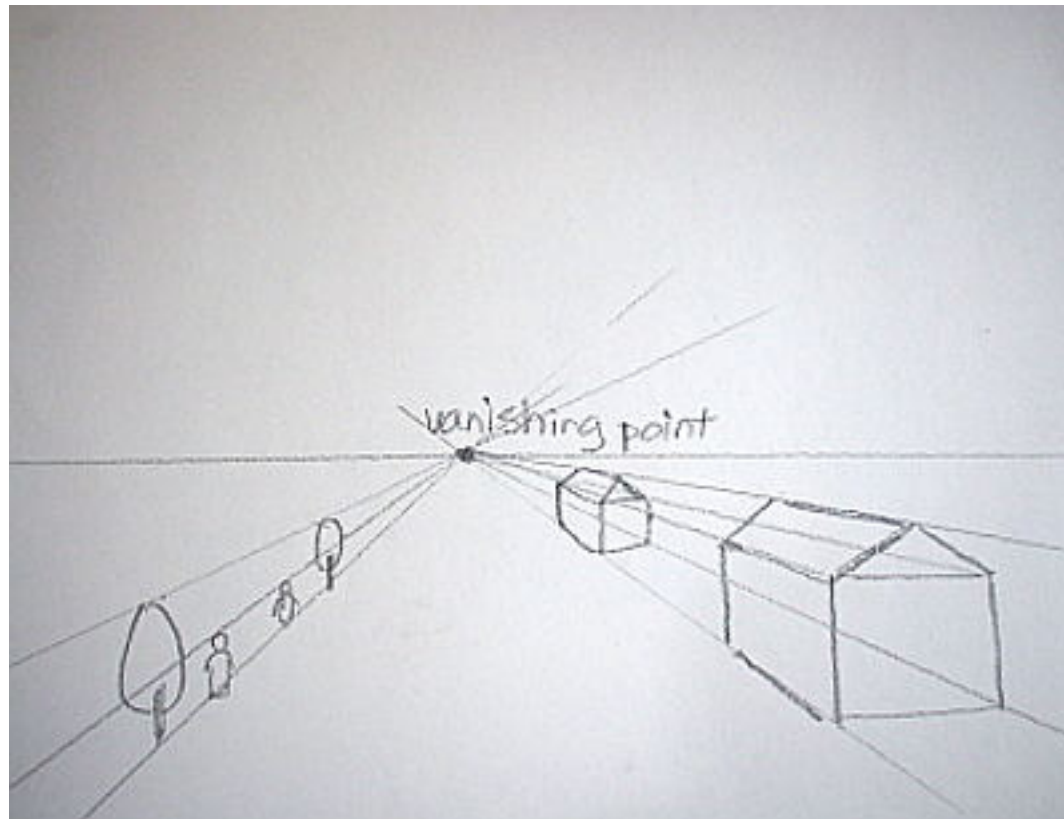

Vanishing Point

Vanishing Point-

A tool for creating perspective in a drawing
The dot where all lines point to and disappear.

One Point Perspective: all lines go to one vanishing point

Two Point Perspective: The lines in an image go to two different points

**Value: The dark and light areas
of an artwork**

**A value scale can show values
from lightest to darkest. It is
a tool used to measure value**
